

2016

Company: Calypso Communications

Submitted by: Devan Meserve, dmeserve@calypsocom.com, 603-431-0816

Challenge or Opportunity:

Last summer we transitioned into a new office space in downtown Portsmouth – moving from Bow Street to Ladd Street. With over 15 years of business experience, the move offered a chance for us to do some major cleaning, organizing, and tweaking for our office space and company brand. Who doesn't LOVE a fresh start?

Approach or Solution (+ Impact):

Change can be hard, but we came together as a team to make the shift as seamless as possible. We took advantage of the opportunity and got serious about transferring paper documents to digital files, clearing out and recycling old furniture and office supplies, and strategically outfitting the new office space with features best equipped to keep the Calypso team happy, healthy, collaborative, and productive. Having everyone involved in the transition made for a fun moving process and a surprisingly easy first full day in the office. The past year in our new space has flown by and it's been a fantastic 12 months and we're looking ahead to what the future holds in Market Square.
