

JUST ONE THING

Company/Organization: Revision Energy

Type of Organization: For profit

Number of Employees: 100

Category: Environment

Challenge or Opportunity: How can we connect with the next generation and teach them about clean energy?

Approach or Solution: Build a tiny mobile home with solar, heat pumps, battery, etc. to allow for a hands on learning activity. The tiny house can be taken to shows, schools, educational events, etc.

Impact: The Tiny house was created to help students get the chance for a hands on experience with renewable energy products. Having a mobile unit helps us access communities we may be able to reach otherwise
