

# JUST ONE THING

**Submitted by:** Amanda Gillen, [amanda.gillen@nhnature.org](mailto:amanda.gillen@nhnature.org)

**Company/Organization:** Squam Lakes Natural Science Center

**Type of Organization:** Nonprofit organization

**Number of Employees:** 30

**Category:** Community

**Challenge or Opportunity:** Three organizations in the Squam Lakes Region (Squam Lakes Natural Science Center, Squam Lakes Conservation Society, and Squam Lakes Association) were looking for a way to engage the local community on climate change solutions at a local level.

**Approach or Solution:** Science Pub's were a way to learn about various topics (ticks, bird populations, solar energy, waste, acid rain, and more) while engaging and socializing with our local community in a casual pub setting.

**Impact:** Science Pub's began in September 2018 with approximately 20 attendees. The last in-person event in March 2020 saw approximately 75 attendees.
