

JUST ONE THING

Submitted by: Stacey Chiocchio, stacey.chiocchio@hypertherm.com

Company/Organization: Hypertherm

Type of Organization: For profit

Number of Employees: 1300

Category: Workplace

Challenge or Opportunity: There is stigma around Substance Use Disorder and we have worked on various ways to remove the stigma and educate our Associates and their friends and families and support those in recovery.

Approach or Solution: We installed Naloxboxes containing Narcan in every NH Hypertherm building next to the AED machines and communicated it as a life saving device just like the AED. We also held a training on the benefits and use of Narcan.

Impact: It builds on our recovery friendly workplace work and sends the message that we will do whatever it takes to save a life and give people another chance to be in recovery.
