NH Businesses for Social Responsibility Announces 2021 Sustainability Slam Winners

NH Businesses for Social Responsibility (NHBSR) spotlighted the inspiring sustainability efforts of fourteen companies and nonprofits at their 7th Annual Sustainability Slam, held virtually on November 4, 2021. The award-winning, high energy Slam not only highlighted these local stories of impact, but also brought together over 100 sustainability professionals and business leaders from many industries to connect, share and learn from each other.

The final entries demonstrated positive change in many areas including workplace inclusivity, waste reduction, clean energy, advocacy, purpose driven leadership, and creativity. Event participants voted in real time for the most inspiring and impactful stories of each presenting category, recognizing all finalists and celebrating seven category winners and the most creative presentation.

Slam finalists had 90 seconds to tell their sustainability story in an engaging, creative way.
